Go Smart Recycle Smart

智能回收新體驗

New Smart Recycling System at Bel-Air is officially launched by April 2023. Residents could enjoy 24-hour recycling service & earn Green\$ anytime!

全新智能回收機已於2023年4月投入服務。此系統將24小時運作，方便住戶隨時投入回收物並累積綠賞積分!

SMART RECYCLING PROCEDURES

醒目回收4步曲

Clean & Sort at Home
家中先行清潔及分類

Activate Recycling Bin with Green\$ QR Code
以綠賞二維碼啟動智能回收箱

Recycle & Accumulate Green\$ Points
放入回收物並累積綠賞積分

Redeem Gifts with GREEN\$ (GREEN@ Ap Lei Chau)
於綠在鴨脷洲以綠賞積分換領禮品

LED Lighting Replacement Works

LED 燈具更換工程

LED lighting replacement work in Indoor Sports Hall of Club Bay Wing was completed by end of April, which improves energy efficiency by lower electricity usage of approx. 6,300kWh per year, also to provide better enjoyments for residents.

灣畔會所室內運動場已於2023年4月尾完成更換LED燈具工作，新安裝的LED燈能增加能源效益並預期每年可節省6,300kWh電力使用量，同時提高住戶體驗。

Use of Air-Cons 冷氣節能小貼士

1. Keep room temperature 5°C cooler than outside, turn 1°C higher can save approx. 3% electricity usage (for 3,000 sq. ft space)*

保持室溫低於室外溫度約5°C，每較高1°C冷氣，有助節省約3%耗電量(以3,000平方呎空間計)*

2. By positioning fan near the air-con, you can circulate the cool air over a wider area

將風扇置於冷氣出風口下方，可將冷氣向上吹，加強循環作用，將冷氣吹向更大範圍

*Reference
參考資料：

Finally, keep your air-con unit clean!
最後，記緊於使用前徹底清洗冷氣！
